Venu gopal Erra

Project Manager , PMP®, PRINCE2® Practitioner, CSM®
Derby, England, United Kingdom

Summary

With over 18 years of experience, I specialize in project management within the rail transport and automotive domains. As a Senior Project Manager at ALTEN LTD - UK, I lead projects to successful completion by ensuring timely delivery, budget adherence, and quality outcomes. My role involves creating cost models, monitoring performance metrics, and managing risks to achieve high-impact results.

By leveraging certifications like PMP®, PRINCE2® Practitioner, and CSM®, I collaborate with teams to foster efficient project execution and client satisfaction. I am committed to enabling organizational success through proactive actions, productivity improvements, and seamless client communication.

Experience

ALTEN LTD - UK
Senior Project Leader
June 2023 - Present (2 years 10 months)
London, England, United Kingdom

Project Management Activities:

- Delivering various types of projects on time, within budget, and meeting quality expectations.
- Contributing to creating cost models and technical offers for new bids.
- Monitoring team and project performance, setting key performance indicators and leading indicators, and taking proactive actions to achieve high performance.
- Identifying and managing project risks and opportunities.
- Preparing and leading regular client meetings, such as monthly reporting, and acting as the first escalation point for technical topics.
- Tracking and analyzing project financial performance, regularly presenting this to the Project Director.

- Taking proactive steps to improve the productivity and profitability of ongoing projects with support and direction from the Project Director.
- Maintaining a clear focus on the project scope and requirements, and identifying, assessing, and addressing any changes that arise.
- Deploying Organisational tools, processes, and ways of working into your projects to achieve the necessary levels of quality and maturity in the management of the projects.

Team Management Activities:

- Forecasting and coordinating the workload of my team, ensuring that the team is correctly sized to handle the amount of work and that the work is distributed efficiently across the team and well-matched to their skills.
- Defining the future makeup of the team and the skills needed within it, working with the Business Team and Recruiters to select the right people for projects at the right time.
- Integrating new team members and managing the skills and capability of the team to ensure delivery of the right level of quality to clients.
- Leading teams by example, setting clear expectations, and upholding the high standards required by organisation and its clients regarding team behaviours and attitudes towards quality, health, safety, and environment.

Alten UK Ltd (Rail and Automotive)

Project Manager

June 2023 - Present (2 years 10 months)

Lead delivery of diverse rail and automotive projects, ensuring alignment with client expectations, regulatory standards, and internal quality benchmarks. Coordinate production releases across multidisciplinary teams, managing scope, budget, and schedule with precision. Develop cost models and technical bids for new projects, contributing to business growth and strategic positioning. Monitor team performance using KPIs, initiating proactive measures to enhance productivity and delivery quality. Serve as the primary escalation point for technical issues, facilitating resolution through cross-functional collaboration. Present financial performance reports to the Project Director, driving transparency and informed decision-making. Forecast team workload and define future skill requirements, collaborating with recruiters to onboard optimal talent. Champion organisational tools and methodologies to elevate project maturity and delivery standards. Promote a culture of excellence in quality, safety, and environmental compliance through hands-on leadership.

Schneider Electric (Cognizant)

Project Manager

January 2022 - June 2023 (1 year 6 months)

Hyderabad, Telangana, India

Identified and scoped new project opportunities aligned with team capabilities and strategic goals. Coordinated production releases across stakeholder groups, ensuring seamless integration and delivery. Assigned tasks based on individual strengths, optimizing team efficiency and accountability. Conducted risk analysis and developed mitigation plans to safeguard project outcomes. Managed a hybrid team of 16 (11 offshore, 5 onsite), fostering collaboration and performance across geographies. Delivered regular progress updates and performance insights to senior leadership.

Cyient

7 years 8 months

Project Leader and Scrum Master

September 2020 - February 2022 (1 year 6 months)

Hyderabad
